

AlpinaTec Technical Products is a development office based in Flachgau, Salzburg, specialising in customer-specific solutions in the field of industrial automation. For more than 20 years, we have had overall responsibility for national and international complete projects for research & development, for the manufacturing industry as well as for the aerospace industry, from the idea to the concept to the final commissioning on site.

We offer more than exciting projects under expanding our team only with clever minds:

Mechatronics engineers (m/f/d)
